UNANI

CONSULTATION - AED 200

Not just a prescribed course of medicine for specific illnesses, Unani medicine works as a preventative means and is often used as a way to live a healthy life, free of disease, with improved longevity, strength and vitality.

The range of treatments start with a thorough consultation and pulse reading to understand the temperament of a person and the treatment plan is then decided accordingly. It traditionally makes use of a variety of techniques including herbal medicines, dietary advice and regimental therapies.

REGIMENTAL THERAPIES - Cupping / Hijama

A holistic therapy performed using suction cups on different points of the body to create a vacuum. Cupping is beneficial for a variety of conditions including migraines, digestive problems, lower back, neck or shoulder pain, insomnia and rheumatism.

CUPPING

FACE

A dry, non-invasive treatment which uses small specially designed cups to lift and massage the facial tissues, working to improve the facial blood circulation. This treatment promotes a healthy lymphatic system and effectively drains out toxins. Face cupping minimizes the effect of sun, environmental damage and aging.

TARGETED CELLULITE

A pressurized suction cup is smoothly moved over targeted areas, breaking down stubborn fat and cellulite, stimulating blood circulation and helping to release deep-seated toxins towards the surface for elimination. This dry treatment is one step towards your fitness and weight loss regime.

HIJAMA

DETOXIFICATION AND WELL BEING

Promotes free flowing of the body's energy, blood and fluids, detoxifying and removing congestion. The immune system is stimulated with the production of new and healthier blood cells. This cupping therapy gives you a feeling of complete wellbeing.

THERAPEUTIC CONDITIONS

Detoxification therapy to restore health and wellbeing and aid the recovery from various conditions including back aches, lumbago, sciatica, neck and shoulder pain, rheumatism, headaches, migraines, stress, insomnia, bloating, indigestion, chronic constipation, acidity, hormonal imbalances and infertility to name a few.

MOVING CUPS

Therapy for the relief of aches and pains. In this treatment the cups are moved to drain the excess fluids and stimulate the peripheral nervous system, increasing the blood flow to the back muscles and skin. It loosens the stubborn knots in the soft tissue, thus relieving muscle tissue tension and stiffness, and also improving flexibility.
